Mr. Dave Randazzo
Randazzo Line Striping
167 Voorhees Corner Road
Flemington, NJ 08822

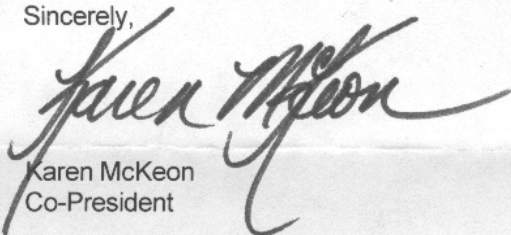

Dear Dave:

Thank you for a fabulous job on our Antheil playgrounds. It has been a pleasure working with you, Rich and Benjamin in transforming a faded playground into an exciting inviting play area for the entire school. Already I have received positive feedback on how wonderful the playgrounds look. Your willingness to work with us on the layout turned what could have been an overwhelming task into an enjoyable process.

Dave you creatively turned our ideas into reality. The alphabet caterpillars on the Kindergarten playground add the perfect touch to brighten up the playground while being a fun teaching tool. The older students will be excited when they see the paw print line while the staff will now have an easy way to split the playground into 2 areas.

Again thank you for your patience, hard work and attention to detail. The results exceeded all of our expectations.

Sincerely,

Karen McKeon
Co-President
